

Manager PA / QA & EEE-Components (m/f/x)

For over 28 years, Munich based STT-SystemTechnik GmbH, has been very successfully designing, developing and manufacturing highly reliable radio frequency data transmission systems and antennas for industry, aerospace and space. Our equipment and systems operate reliable in many different applications worldwide -and in the vastness of the universe- under very harsh environmental conditions.

To strengthen our team, we are currently looking for a Product- / Quality Assurance Manager & EEE-Components Specialist (m/f/x) joining us at the earliest possible date.

Your area of responsibility would include:

- Preparation of test procedures and observation and documentation of tests for verification of our equipment while operating under different environmental conditions
- Responsible for all PMP and RAMS activities
- Evaluation, assessment, selection, justification and qualification of EEE-Components
- Compilation of PA-documents and analysis (radiation, reliability, stress, FMEA, etc.)
- Supervision, review and control of our Quality Management Systems (ISO9001)
- Planning and Control of special Product Assurance Tasks like Risk management, etc.
- NCR and RFW Management for all non-nominal issues with our customers and suppliers
- Securing our compliance with relevant standards and specifications

What you can expect from us:

- We offer an international, highly innovative and exciting environment,
- You work actively on very interesting projects for our customers worldwide,
- You can successfully contribute with your own knowledge, experience and ideas, as well as your passion for electronics
- You will find an open and modern working environment in a familiar atmosphere

What skills you should bring along:

- A degree in engineering sciences, physics or any equivalent qualification
- Extensive working experience in Product Assurance within the space market
- detailed and well-founded knowledge of EEE-components especially their radiation and reliability behavior, as well as wide experience in compilation of proper investigation and analysis documents
- In-depth knowledge of the relevant ECSS- and MIL-Standards

- Experience as inspector per ECSS-Q-ST-70-xx and holding a valid certificate would be much appreciated

This is how you inspire us:

- Your strong motivation and your dependability
- Your high awareness for quality
- Your ability to work both independently and within a team
- Your organizational talent and your creativity

We also offer many benefits:

- free coffee, fruits, drinks and snacks,
- above-average leave days,
- flexible working hours,
- modern equipment and IT,
- company pension scheme,
- flat hierarchy,
- no dress code – come as you are

Join our extraordinary team and shape forward-looking innovations together with us.

If you feel addressed and if you think this job is what you've been looking for, please send us your detailed application stating the earliest date you could start and your salary expectations.
